

## Cat 8 S/FTP Shielded Patch Cable LSZH - Blue

### Product Brief

Work hard and play harder with a high-speed 40Gbps data transmission and up to 2000MHz bandwidth. Perfect for the rise of e-conferences, e-learning and large file transfers, the Cat 8 is great for Network adapters, Hubs, Switches, Routers, DSL/Cable Modems and Patch Panels. Surpassing its predecessors, the Cat 8 Ethernet Cable has 4x the frequency of the Cat 6A cable, and enhanced twisting of the wires compared to the Cat 7. The 4 shielded foil twisted pair (S/FTP) oxygen-free copper wires protect from crosstalk, noise and interference that may degrade the signal quality.

Connect your LAN/WAN segments and networking gear at maximum speeds for data at high speeds, without the waiting. Surf, stream, and transfer seamlessly.

Comsol Code	Length
SSTP-5-C8-BLU	50cm
SSTP-01-C8-BLU	1m
SSTP-1.5-C8-BLU	1.5m
SSTP-02-C8-BLU	2m
SSTP-03-C8-BLU	3m
SSTP-05-C8-BLU	5m
SSTP-10-C8-BLU	10m
SSTP-15-C8-BLU	15m

### Features

- Carries the Regulatory Compliance Mark (RCM)
- Supports a massive 40Gbps data transfer
- Upgraded 26 AWG shielded twisted pair stranded conductors
- RJ45 connectors with 50 micron gold plated contacts
- Compatible with old Cat 6, Cat 6A, Cat 5, and Cat 5E cable standards
- Lightning performance rated up to 2000Mhz
- Low-smoke zero halogen jacket (LSZH)
- High density polyethylene insulation
- Compliant to Australian Standard AS/CA S008:2010
- Supports 25Gbps and 40Gbps up to 30m.
- Supports 10Gbps up to 100m
- Lifetime Warranty

### Certifications

UL Verified  
 Performs at 2000MHz  
 ISO/IEC11801:2011 (Ed.2.2)  
 ANSI/TIA/EIA-568-C.2 Category 8 Compliant  
 EN 50173-1:2011  
 EN 50173-2:2007 including amendment A1:2010  
 IEC61935-2:2010(ED3.0) (transmission requirements)  
 AS/CA S008:2010 including amendment 1:2014
