

Klik 2 Port HDMI Splitter

The Klik HDMI 2 port splitter takes a single HDMI input and outputs simultaneously to 2 x HDMI displays. While splitting the HDMI signal to multiple displays, the digital image quality is not degraded ensuring perfect, clear, crisp full high definition viewing. With support for Ultra HD 4K2K, Full HD 1080p, 3D video and digital audio, the KHS142 is the ideal solution for any display presentation, conference, training room or retail display environment.
